It's time to fly.

Savvy processor colors and styles sure to complement any wonder kid's secret identity.

cool.

powerful

Though it's sized like a sidekick, the powerful OPUS 2 packs enough battery life to Save the Day.

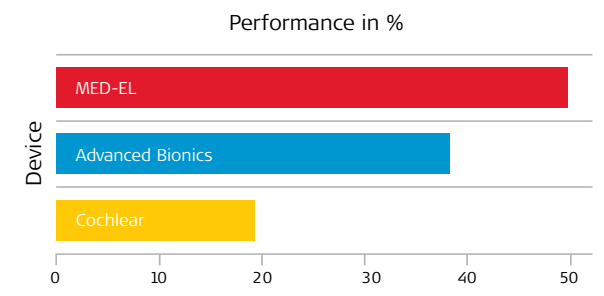

Up to **5 DAYS** with two 675 zinc-air batteries!

superior.

Leave it to MED-EL to outlast, out-blast, and vanquish any foe.

Up to 30% better performance in noise than any other tested system.

Calculated from Haumann et al. (2010) using the psychometric function from Schmidt et al. (1997)

20% higher speech perception scores than any other tested system.

Brough et al. (2010) Speech discrimination scores using the latest generation of speech processors, CI, 11(S2): 119-24.

[While supplies last]

Come fly with us. Visit MED-EL's booth and get your cool RED CAPE!
